## PREFACE.

---

WHEN the publisher of the Shelbyville City Directory and Shelby County Gazeteer started out upon his venture, he little knew the magnitude of the undertaking. Perseverance, however, and patience have enabled him to reach the end. He now presents to his many patrons the long-looked-for volume, hoping that they may take as much delight in reading and referring to it as he has taken in its preparation. The work has been hard and most of it has necessarily been slow, nevertheless with the aid of his new bicycle, the publisher can certainly say that this has been the happiest summer he has ever passed.

The City Directory has been very carefully prepared. The publisher can vouch for its accuracy himself because he has gone to every house in this city and inquired diligently respecting every individual. The list of business and professional men which constitute the second principal dapartment of the work he can also vouch for because he has gone into every neighborhood in Shelby County and made diligent search. The list of land-owners certainly is not the least accurate because it has been prepared by a person of extensive acquaintance throughout city and county, namely, Ex-County Treasurer M. Posz. The reader will observe that there are many other items of interest to be found throughout this volume. If this present venture gives the satisfaction that we feel it ought to give, two years hence we will publish another volume.

Respectfully,

DOUGLAS DOBBINS.

## STREETS OF SHELBYVILLE.

---

The two principal streets of Shelbyville are Harrison and Washington which cross at right angles through the Public Square.

Harrison runs north and south, Washington east and west.

Jackson is the first street south from Washington running east and west, Broadway the second, Hendricks the third, Polk the fourth, Taylor the fifth, South the sixth, Locust the seventh. All of these streets cross Harrison at right angles. The eighth street south from Washington is Colescott, which begins with Harrison and runs west.

Franklin is the first street north from Washington, running east and west, Mechanic the second, Pennsylvania the third. These three streets also cross Harrison at right angles. The fourth and fifth streets north from Washington, are Walker and John, which run east and west from Harrison. Elizabeth is a street running east and west, still farther north, but it does not commence with Harrison, but commences one square east.

Pike street is the first east of Harrison, running north and south, Noble the second, Hamilton the third, Walnut the fourth, Vine the fifth. Murdoch street is a short one running north from Franklin, and situated one square east of Vine.

Tompkins is the first street running north and south west of Harrison, West is the second, and Miller the third. These three streets cross Washington at right angles.

Commencing with Miller street Washington veers to the southwest and becomes Washington Avenue. The first street branching off from Washington Avenue is Conrey, which runs north therefrom. At a point where Washington Avenue blends with Broadway Montgomery street commences and runs south.

This is the main plan of the city. Farther down Washington Avenue is found Love, Major & Morrison's additions. In this is found Maple Avenue, running north to a point where it joins Circle street, running east and west.

**See ARNKEN'S, the Jeweler, No. 1 Public Square, for a  
Reliable Watch or Clock, and all kinds of Jewelry.**

Repairing promptly done in a workmanlike manner

---

Meridian street runs south from Colescott between Tompkins and West. Jefferson runs south from Taylor to South street between Tompkins and Harrison. Here it becomes Elm, and runs thence south to the city limits. Smithland Avenue begins at Miller street, and runs south-west beyond Montgomery to the city limits.

Sunnyside and Maplewood are two additions south of the city. Harrison street veers to the east and becomes Maplewood Avenue.

Gordon Street runs east from Maplewood Avenue through Sunnyside. McKensie street runs east from Maplewood Avenue through Maplewood.

---

**EXPLANATORY.**

The letter "h," or house, in describing the residence of an individual, indicates the said individual to be the head of the family. When the word "lives" is used in the same connection, it indicates that the person is another member of the family except the head.

The compiler has, as a general rule, given the occupation or business as he received it from members of the household. It is to be hoped that no one will be offended at being designated as servant, domestic, or any other title, because the compiler has only used such titles when they have been given by some member of the individual's family.

Great carelessness exists in the numbering of many houses, notwithstanding the Ordinance makes the failure to number a finable offense. The compiler after notifying the parties to number, and then being greeted by the same carelessness, has designated such houses as nearly as possible; hence the reader will often find a house located between two other numbers, or when it is at the end of a street, beyond such and such a number. Sometimes opposite a given number is found.

## THE NEW WEBSTER'S DICTIONARY

A GRAND INVESTMENT FOR FAMILY OR SCHOOL.

WEBSTER'S  
INTERNATIONAL  
DICTIONARY

The Authentic Webster's Unabridged Dictionary, comprising issues of 1864, '79, and '84, (still copyrighted), has been thoroughly revised and enlarged, under the supervision of Noah Porter, D. D., LL. D., of Yale University, and as a distinguishing title, bears the name

### WEBSTER'S International Dictionary.

The work of revision occupied over ten years, more than a hundred editorial laborers having been employed, and over \$300,000 expended before the first copy was printed. Every page has been treated as if the book was now published for the first time.

Critical comparison with any other Dictionary is invited.

Sold by all Booksellers.—Descriptive Pamphlet free on application.

**Caution** is needed in purchasing a dictionary, as photographic reprints of an obsolete and comparatively worthless edition of Webster are being marketed under various names and often by misrepresentation.

GET THE BEST, The International, which bears the imprint of  
**C. & C. MERRIAM & CO., Publishers, Springfield, Mass., U. S. A.**

Watches have been reduced in price by the Factories.

FOR NEW PRICES SEE

# THE SUN

SHINES  
FOR ALL

SOME HE WARMS!  
SOME WITHERS!

WHY THIS DIFFERENCE?

The secret is in the difference of vital power—life. Where there is reserve force and adaptability to conditions, there is progress—growth. Where there is feebleness and inadaptability, there is degeneration—decay. How does this relate to Dry Goods? Just the same as it relates to trees.

## A TREE

Must have depth of root, soil, moisture, a sound trunk and wide branches, while

## A STORE

Must be well grounded; must be well managed; must have ample patronage; must be fed at the roots while the branches give up their fruitage; must grow upright like a tree; and it must have an out-put that is substantial and satisfactory, with

ALL THESE WILL

'STABLISH, STRENGTHEN, SETTLE

A

**Store's**  
**Success.**

Without any or all of these, the tendency is to degenerate under the

OF THE PUBLIC.

But the main thing is truth: True estimates in buying, true value in selling price, true representation, true measure, true advertising, truth between clerk and customer,

**"For there's nothing else that keeps its youth,  
So far as I know, like a tree and truth."**

The modern method of merchandising admits of no other way to grow commercially, and our record of 16 years, our immense stock for a city of this size, and our continued prosperity, all attest whether we have kept this standard in view or not.

# DR. H. C. GOODRICH

Has opened an Office in Shelbyville for the practice of  
**DENTISTRY,**

And knowing that all people have, sometime in their life, the need of services from a Dentist, it is his desire to call attention to the inducements he is able to present, as follows:

- 1st. That he is doing the very **BEST** work at prices that defy competition.
- 2d. He makes a specialty of the *Preservation of the Natural Teeth.*
- 3d. He does all kinds of Crown and Bridge work.
- 4th. He puts in Artificial Teeth without plates.
- 5th. **FILLINGS**—Gold, Silver, Bone, and everything else in the filling line used in the natural teeth.
- 6th. He makes a specialty of the care of **CHILDREN'S** teeth.
- 7th. Repairing of all kinds done in the best manner and on short notice.

 Call and see work and get prices before having work done elsewhere. You will save money by doing it.

**Office No. 73 South Harrison Street.**

**ABELE & ARZET, THE MOST POPULAR TAILORS.**

THE ONLY FAITHFUL REPRINT OF THE  
**Encyclopædia Britannica,**

The Complete Reprint by the Henry G. Allen Co.,

**NEW YORK, 739-741 Broadway.**

**CHICAGO, 122-124 Wabash Ave.**

The ALLEN Reprint is the ONLY COMPLETE Reprint.

The Only Reprint of the Latest Ninth Edition.

The Only Unmutilated Reprint of any Britannica.

The Allen Company control the ONLY POPULAR PRICED Edition of the  
ONLY "American Supplement" to Britannica.

The Allen Company have completed a perfect and exact reproduction of every colored map, plate, illustration, word, letter of the expensive original, PAGE for PAGE—sub-indexes, marginal references, and both the English and American maps of all the States and Territories—a volume differing only in size and shape but far more convenient for use and more durably bound than the expensive Original. In the body of the Britannica the maps which are in harmony with the text; and in the Supplement all the Latest Maps of the States and Territories on the same paper as is used by their publisher in his Atlas. Thus the Allen Reprint is the Latest and Greatest Atlas in the world—**Over 700 Maps.**

Do not imagine it poorly made because the price is low. It is a handsome and durable volume in genuine bindings, double hinged and flexible back, on good quality book paper. It is sewed on the "Smith Sewer,"—a machine recently perfected, and which sews this book precisely as the famous "Oxford Teacher's Bible" is sewed by hand. This "grand labor-savor" has accomplished a two-fold good—it makes the most durable of bindings and at the same time has contributed greatly to reduce the cost of our edition. Witness these marvellous prices:

**Only \$1.50 per Volume.**

Send for Circular, Prices, and Proofs of its superiority, to the Chicago  
zinc-print.
